

### Ship to Shore

Ship to shore, I can't hear you any more  
I'm drifting in nowhere and I'm lonely  
Ship to shore, I can't hear you any more  
Won't you please guide me home

I was never one to wander and I never wanted anybody else  
But I had things to ponder, I needed time to think  
And time to be myself  
And I always thought you'd be there waiting -  
Like a harbour in the storm

But ship to shore I can't hear you any more  
Won't you please guide me home

No I never had a reason  
No hope in hell of telling you for why  
But I couldn't fight the feeling  
Just had to get away to see the highland eagle fly  
And I always knew you'd be there waiting  
You're my harbour in the storm

But, ship to shore I can't hear you nay more  
Won't you please guide me home
